DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-27 are rejected under 35 U.S.C. 102(b) as being anticipated by Wu.

Wu's Fig. 1 illustrates a media processing filter engine including a first memory unit (the multi-port memory and the topmost output port that feeds rs21), a second memory unit (the multi-port memory and the middle output port that feeds rs11) and a SIMD processor (note Fig. 1 and the abstract). Fig. 13 illustrates FIR filtering. Relative to the no-split operation mode note that Fig. 20 illustrates receiving of data from only one of the first and second memory units. Relative to the first and second sets of data path units note the processing elements of Fig. 1. Relative to the first and second shift registers note registers rs21-rs2n and rs11-rs1n of Fig. 1.

Contrary to applicants' remarks Wu's multi-port memory may be view a multiple memory units. Also, contrary to applicants' remarks Wu does filter media data, e.g. note column 1, lines 13-15 and 35-38. Finally, contrary to applicants' remarks Wu's shift registers do selectively shift their contents by a predetermined number of bits corresponding to the size of a data element, e.g. when the shift registers feed another shift register or a computation element.

Conclusion

3. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
